AGP Agricultural Production District

"AGP" District Intent, Permitted Uses, and Special Exception Uses

District Intent Permitted Uses Special Exception Uses

Whitley County Zoning Ordinance Chapter 3 Page- 4 - The "AGP" (Agricultural Production) District is intended to provide a land use category for intensive agricultural uses and to recognize certain needs of the agricultural community. The goals of this land use district would be for enhanced Right-to-Farm protection, recognition by community, and to promote agricultural economic development.

Non-agriculture uses that are located within this zoning district may not object to any permitted agriculture use, whether such uses currently exist, are enlarged, or change in the future to another agricultural use.

This district should maintain large, undeveloped areas for productive agricultural uses and intense agricultural-related uses.

Whitley County's Plan Commission and Board of Zoning Appeals should strive to protect this district from conflicting land uses, non-agriculture oriented businesses, and any use that may inflict significant environmental impacts or be injurious to neighbors.

Agricultural Uses

- agricultural crop production
 agricultural <u>feed and</u> seed sales
- animal husbandry of livestock
 not in a confined feeding
 operation
- confined feeding operation (up to 3000 animal units Classes 1, 2)****
